Whigs of the United States, in Convention assembled, firmly adhering to the great conservative republican principles by which they are con-trolled and governed, and now, as ever, relying upon the intelligence of the American people, with an abiding confidence in their capacity for selfgovernment and their continued devotion to the constitution and the Union, do proclaim the following as the political sentiments and determina-tions for the establishment and maintenance of which their national organization as a party is

1. The government of the United States is of limited character, and it is confined to the exereise of powers expressly granted by the consti-tution, and such as may be necessary and proper for carrying the granted powers into full execu-tion; and that all powers not thus granted or necessarily implied are expressly reserved to the

States, respectively, and to the people.

2. The State governments should be held secure in their reserved rights, and the general government sustained in its constitutional powers, and the Union should be revered and watched over as "the palladium of our liberties."

3. That, while struggling freedom everywhere

is the warmest sympathy of the Whig party, till adhere to the doctrines of the Father of intry, as announced in his Farewell Adt heeping ourselves free from all entanfitting our own to stand upon foreign round. That our mission as a republic is not to ropagate our opinions, or impose on other counour form of government by artifice or force, but to teach by example, and show, by our succli-government and the advantages of free in-

4. That where the people make and control the government, they should obey its constitution, taws, and treaties, as they would retain their selfrespect and the respect which they claim and nforce from foreign powers.

Government should be conducted upon prin ciples of the strictest economy, and revenue suf-ficient for the expenses thereof, in time of peace, it to be mainly derived from a duty on imports, and not from direct taxes; and in levying such daties, sound policy requires a just discrimination, and protection from fraud by specific duties when practicable, whereby suitable encour-agement may be assured to American industry, equally to all classes and to all portions of the

6. The constitution vegts in Congress the power to open and repair harbors, and remove obstruc-tions from navigable rivers; and it is expedient that Congress should exercise that power, whenever such improvements are necessary for the common lefence, or for the protection and facility of commerce with foreign nations or among the States; such improvements being, in every intance, national and general in their character.

7. The federal and State governments are parts of one system, alike necessary for the common resperity, peace, and security, and ought to be egarded alike with a cordial, habitual, and mmovable attachment. Respect for the authorty of each, and acquiescence in the constitu-ional measures of each, are duties required by the plainest considerations of national, of State of individual welfare.

8. The series of acts of the 31st Congress comonly known as the Compromise or Adjustment (the act for the recovery of fugitives from labor included) are received and acquiesced in by the Whigs of the United States as a final settlement, in principle and substance, of the subjects to relate; and, so far as these acts are we will maintain them, and insist n their strict enforcement, until time and exrience shall demonstrate the necessity of furher legislation, to guard against the evasion of he laws on the one head, and the abuse of their wers on the other-not impairing their present efficiency to carry out the requirements of the constitution; and we deprecate all further agitation of the questions thus settled, as dangerous to our peace, and will discountenance all efforts o continue or renew such agitation, whenever, wherever, or however made; and we will main-tain this settlement as essential to the nationality of the Whig party and the integrity of the Union

B. A. CLARK & CO.

Mexican Mustang Liniment!

qua non of all external remedies ever before offered to the afflicted:

"Wm. M. Johnston, No. 112 Second street, Pittsburg, says that he had a severe attack of kheumatism in his right hip; after suffering some ten days, the left hip also became affected, and he was obliged to 'lay up.' The pain was constant and excrucialing. He had heard of the wonderful effects of the Mustang Liniment in Rheumatism, and determined to try it. One small bottle, thoroughly applied, performed a perfect cure! H. H. Meakings, 18. Walmut street. Cincinnath, was confined to his bed and under treatment of a physician some six weeks with Neuralgia of the whole of his right side, leg, arm, and face. His sufferings were indescribable, and theonly consation from the most agonizing pain was while under the influence of opium or morphine. His doctor finally advised him to try the Mustang kiniment; he did no, and in two days was able to go about his business, perfectly cured."

"The Lame Made To Wals.—About the first of April I cut and laid open the fore finger of my left hand, through

perfectly cured."

"Tar Lame nade to Walk.—About the first of April I cut and laid open the fore finger of my left hand, through the bone and across the second joint, nearly dissevering it from the hand, being about two-thirds off. I was fearful that I should lose the use of my finger forever; but I bound it up with the Mexican Mustang Liniment, and it soon bealed up, and is now perfectly well, though somewhat scarrified. I used nothing but the Mustang Liniment.

"About one week ago I had the misforture to cut the cap of my left knee in two with the sharp corner of an aze. The cap was split saunder, and for a day or two I could not use my leg at all, and I was afraid that I would lose its use for ever. The cap was cut and cleft to the joint with a deep and alarming asah, and it gave me great pain and uneasiness, lest I should be entirely deprived of the use of my leg. I applied the Mexican Mustang Liniment, and that alone, in both of the above cases, and I am now quite well, except the cap of my knee is a little swollen, and is tender about the out, which is healed up and shows a fresh red appearance of about one inch and a half in length and a quarter of an inch in width, but gives me no inconvenience whatever.

"I walked fifteen miles yesterday out of the thirty miles from the place where I live mear the Sulphur Springs, in Jefferson county, and feel able to walk as many more to day. My recovery has been so wonderful that I feel it my duty to make it public, that the world may know the value of the Mexican Mustang Liniment.

AARON ROSE.

PULVERIZING

Recently Patented in this Country and Eur. Recently Patented in this Country and Europe.

COCHRAN'S PLANOSPHERICAL QUART CRUSHENG ARD PULVERNING MACHENES are now in daily operation for the
ispection of the public, and will be submitted to any reamable practical tests proposed by parties interested.

These machines, by their simplicity of construction, their
urability, the undoubted principles upon which they oprate, their effective operation and result, are justly entitled
the consideration of all parties engaged in grinding,
ushing, and Patverising Quarts, from Ore, Zinc, Copper,
ushing, and Patverising Quarts, from Ore, Zinc, Copper,
of Lead Ores, and all other Ores or Mineral substances.

It is the peculiar feature of the economy of these mabines that they are found capable of crushing and pulvering into the finest powder any amount of Quarts or other
arrhy matter, in proportion to the amount of weight or
over applied. The earthy matter is so completely ground
and pulverized, that the Gold may be easily separated, and
abjected to any process of amalgamation that may be neseasy.

The machines work and deliver set or dry as may be re-

and pulverized, that the Gold may be easily separated, and subjected to any process of amalgamation that may be necessary.

The machines work and deliver wet or dry, as may be required, and run with little friction, (being almost without machinery.) requiring no lubricating; the principle upon which they operate precludes the possibility of their being pulverized. They are at once applicable for all purpones of grinding and pulverizing, from those required by the Drugglat to those of the most extensive operations in California and Australia.

These machines are from two to twelve feet in diameter, with balls or spheres from three inches to five feet in diameter, with balls or spheres from three inches to five feet in diameter, each machine weighing from 250 pounds to 20 tons each, and are sold, with the right to use them, at from \$100 to \$5,000 each.

They can be worked by steam, water, horse or manual power, according to their size; and by changing the velocity and proportioning the weight on the top of the balls, any desired amount of power may be used, from that of a man or horse upward.

The proprietors of this invention solicit examination, and will prove by practical tests the vast superiority and economy of these machines over any other, for crunking, grinding, or pulverizing, heratofore offered to the public.

These machines may be seen in operation at the foot of South Eighth Street, Williamsburgh, at the large Patent Block and Saw Factory of Messus, Burr, Waterman & Cog first street south of Peck Sllp Ferry, every day, from 7 to 9 a.m., and from 4 to 6 p. m. For further particulars, apply to E. & J. BUSSING & CO.

32 Cliff street, New York.

Mechanics, Manufacturers, and Inventors.

THE Eighth Volume of the SCIENTIFIC AMERICAN commences on the 18th of September. It is principally devoted to the diffusion of useful practical knowledge, and is eminently calculated to advance the great interests of industry—Mechanical, Manufacturing and Agricultural—the genius and master-spirit of the nation.

It is unrivalled as a Journal of the Arts and Sciences, and maintains a high character at home and abroad.

The piblishers pledge themselves that the future volumes shall at least equal, if not surpass their predecessors. Among the subjects chiefly brought forward and discussed in its columns, are Civil Engineering, Architecture, Railroads, Bridges, Articultural Implements, Manufactures of Metals, Fibrous and Textile Substances, Machinery for the purpose, Chemical processes, Distilling, Coloring, &c., Steam and Gas Engines, Bollers and Furnaces, Mathematical, Philosophical and Optical Instruments, Cars, Carriages, Water Wheels, Wind and Grinding Mills Powers, Planing Machines, Tools for Lumber, Brick Machines, Farming, Fire Arras, Electricity, Telegraphs, Surgical Instruments, &c., besides Claims of all Patents, Reviews, Notices of New Inventous, American and Foreign. The work is in form for binding, contains several hundred Enginvings, over four hundred pages of printed matter, and a copious Index. Nearly all the valuable Patents which issue weekly from the Patent Office are illustrated with Engravings in its columns, thus making the paper a perfect Mechanical Encyclopedia for future as well as present reference.

Valuable Premiums are offered for the largest list of Subscribers to this Volume. It is published weekly by MUNN & CO., at their Patent Agency Office, 128 Fulton street, New York. Mechanics, Manufacturers, and Inventors.

TERMS-ALWAYS IN ADVANCE.

MAYOR'S PROCLAMATION.

WHEREAS by the act entitled "An act relating to Dogs," approved 25th July, 1829, and the act amending the same, approved 25th April, 1838, it is provided that "whenever it shall be made appear to the satisfaction of the Mayor that any animal of the dog kind" within the city shall be "deemed and considered mad," "It shall be the duty of the Mayor to issue his proclamation requiring that all animals of the dog kind shall be kept confined for such number of days as he shall deem expedient and proper to state in said proclamation, not exceeding ninety days; and it shall be the duty of the city constables, and lawful for any other person, to kill and bury all and every day going at large contrary to the said proclamation," &c.:

Now, therefore, it having been made to appear to my satisfaction that there are "animals of the dog kind" mad within this city, I do hereby give notice to all whom it may concern that "all animals of the dog kind" in this city are required to be kept confined for and during the term of thirty days from the date hereof; and the police officers of this Corporation are required to enforce the law in respect to all such as may be found going at large contrary to this proclamation.

MACHINE FOR CRUSHING, GRINDING, AND "COME, LET US REASON TOGETHER." ORAL TESTIMONY.

ORAL TESTIMONY.

THOUSANDS feel it a duty to talk to their afflicts
friends of the basefit derived from HAMPTON'
VEGETABLE TINCTURE. From day to day we hav
given the certificates of cures performed on our best-knowcitisens, and still we have a perfect avalanche of letter
pouring in upon us—all, all giving a weight of testimonthat must convince the most skeptical. All are invited t
call and read for themselves. The letter below is from on
of the first mercantile firms. To those who know thom, in
must carry conviction, and induce many sufferers to giv
this Tincture a trial:

POWT BOYAL Va., July 27, 1852.

PORT ROYAL, Va., July 27, 1852. Mesers. Mortimer & Moubray: Gents: We have again to send an order for more of your truly wonderful Hampton's Vegetable Tincture. Since it was first tried it has sold without an effort, and we have not seen the first person who has, not been greatly benefited by its use. A gentlemen of our neighborhood was induced to try the "Tincture" for a violent palpitation of the heart. He had suffered so much from it that he said he had prayed for death. He had taken but three doses when he assured us he would not take five hundred dollars for the benefit he had derived, and that he should never cesse to remamber us with gratitude for calling his attention to so valuable a medicine.

Yours, truly, GRAY & PENDLETON.

The Whole World, Attention!-Hear him, ye sick, and do likewise!!

BALTIMORE, Feb. 9, 1852; BALTIMORE, Fob. 9, 1852;

Mattra Mortimer & Movebray: Gentlemen: It is with real pleasure that I am able to attest to the general healing and curative powers of Dr. Hampton's Vegetable Tincture. Sometime during last November I was taken with a very bad and serious cough. I was advised to take Cod-Liver Oil, and did so; but getting no better, I was induced to try your Tincture. I got one bottle, and before I had used it all my cough left me. Permit me also to state that, for the last fitteen years, I have suffered very much from Acute Rheumarism and Vertigo, confining me at times to my bed. I am fully convinced that I owe my present good health to the use of the Tincture, and a kind Providence.

You are, my friends, at liberty to use this as you may think proper; and believe me, yours, very respectfully,

M. B.—I can be seen at any time at the Mayor's office.

N. B.-I can be seen at any time at the Mayor's off

THE ALMOST MIRACULOUS CURES made by Hamp ton's Vegetable Tincture on our most respectable citi-zens—men well known and tried—we challenge the world to show anything on record in medicine to equal it. Many hundreds who have felt its healing powers hear the same testi-

Messrs. Mortimer & Mowbray: Gents: Last September I was attacked with erysipelas, from which a dreadful ulcer formed on my right leg. Getting better of this, last November I took a deep cold, which led to what my physician told me was billous pleurisy, which left me with a constant, deeply-seated, and painful cough, having no rest day or night, and constantly throwing up from my lungs a thick matter. I became much emaciated, growing weaker every day, and keeping my bed the greater part of the time. My friends thought I had the consumption, and at times I was also of the same opinion. At this stage of my disease, after having tried many and various remedies, without success, a friend advised me to try DR. HAMPTON'S VEGETABLE TINCTURE, and procured me a bottle, which I now pronounce the greatest medicine I ever took. Before I had taken half the contents of one bottle I felt much improved; and now, having taken but two bottes, my cough and pairs have entirely left me, and I am enabled to attend to business. I can truly say that, with the blessing of God, I have been restored to the health I now enjoy by the use of this most invaluable medicine. BALTIMORE, July 6, 1852

Truth stranger than Fiction !- None need despair ! A Lady's Testimony after thirty-eight years

of suffering!

Were there not real virtue in this wonderful medicine, could it perform the astonishing cures made by it?

NORTHAMPTON CO., April 13, 1852.

Mestrs. Tyler & Adair: I have been afflicted with Rheumatism, at times, from my twelfith year; I will be fifty years of age the 18th of this month; the attacks were at times so severe as to render me helplens; I have tried various remedies to very little effect. Last October I was attacked in my shoulders, sides, back, and hips; I could not rest, day or night; I could not move any part of my body without crying with pain; at this time I also tried many remedies, internal and external, without receiving any relief; I was at last advised to try HAMPTON'S VEGETABLE TINCTURE; before I had taken one bottle of which I felt much better, and as I continued taking it I felt strength coming into my back and limbs, and my stomach strengthened and revived every way; I have taken five bottles, and am much better than I ever expected to be. I intend to use it whenever I need it, and would recommend it to the afflicted, believing it unequalled.

ELIZABETH BAGWELL.

REV. VERNON ESKRIDGE, U. S. N. Ponrsmouth, (Va.,) Aug. 18, 1851 Mr. J. E. Bouch-Dear Sir: While I am in general Mr. J. E. Bouzh—Dear Sir: While I am in general opposed to Patent Medicines, candor compels me to state that
I have great confidence in the virtues of Hampton's Vegetable Tincture. For several months past I have used it in
my family, and in Dyspepsia, loss of appetite, dizxiness, and
general debility, with entire success. Bo far as my experience extends, therefore, I take pleasure in recommending it
to the affilieted as a safe and efficient remedy.

I am, respectfully, yours,

VERNON ESKRIDGE,

Chaplain in the U. S. Navy.

HAMPTON'S VEGETABLE TINCTURE, by its mild action on the Stomach, Liver, and the Kidneys, will cure byspepsia, Cough, Asthma, Bronchial and Lung Affections; Pains in the Back, Side, and Breast; Consumption, Scrotula, Rheumatism, Gout, Neuralgia, Fistula, Piles, Bowel Complaints, Worms, Nervous Deblity—with all diseases arising from Impure blood, and is the greatest Female Medicine ever known.

om impure bloom, and ever known. For Cholers Morbus, Cholic, Diarrhom, and all disease reliant to the bowels in the summer season, it has n equal.

Their place of business is at the corner of 6th street and Pennsylvania avenue, where they will keep constantly on hand a good and general assortment of Furniture, and would be happy to supply their friends and those who may favor them with their custom at reasonable prices.

A. GREEN,

orices, sep 3-Protection from Lightning.

The undersigned, being the duly appointed Agent of SPRATT'S ELECTRICAM AND ELECTRO-METALLURGIST LIGHTNING-ROD MANUFACTORY, Covington, Kentucky, begs to offer these superior Rods, of Spiral-twisted, Carbonized Annealed Iron, with Zinc Protectors, and Electro-positive elements combined in their manufacture; thus rendering them equal to copper as conductors. They are in ten-feet lengths, with accurately-flitted brass-screw connecting joints, an entire new style of metallic (patented) attachments, for brick or frame buildings; also, glass isolaters, of a novel and ingenious construction, (patented), forming a lock; the whole mounted with a solid platinum silver point, (patented,) twelve inches long, surrounded at the base with three angular negative magnets, which possess the power, to an extraordinary extent, of discharging the opposite elements of the most fragrificent and perfect silent conductor ever presented to the public.

Safety has not been compromised by affording these excellent rods at such low rates; the greatest attention has been given to their construction, so as to be readily attached. The astonishing power of the negative magnets, in discharging the air of its opposite elements, has been clearly demonstrated by the Electrometer, when unmagnetized points have shown but slight results, though placed under the same conditions. In fact, they gather and silently discharge electricity from the atmosphere when you would scarcely suspect any being present.

These improvements being secured by double letters patent, you are hereby cautioned against laying yourselves liable, by purchasing of those who are not authorized, or who are substituting inferior imitations. All agents duly appointed can show their certificates. Have good rods or none.

CHARLES W. HEYDON,

Washington City. Protection from Lightning.

I do hereby certify that I have app lied various powerful chemical re-agents to Spratt's Patent Points for Lightning-Rods, and that the results of these experiments convince me that they will resist the action of atmospheric causes, and thereby preserve the extremity sharp—a co sential to protection against lightning. The reagents used in the above experiments were a solution of chloride of sodium, (common salt.) acetic acid, sulphuric acid, and hydrochloric acid. With the first, there was no action on the metal; with the several acids, there was very slight—a fact sufficient to show that atmospheric inducences would have no sensible affect.

no sensible effect.

JOHN LECONTE, Prof. of Nat. Phil. et Chem.

UNIVERSITY OF GA., October 8, 1850.

JOHN LECONTE, Prof. of Nat. Phil. et Chem.
UNIVERSITY OF GA., October 8, 1850.

The Lightning Conductors of Mr. Spratt, effered to me, are well calculated to perform the office for which they are intended. Yours, truly.

EXISOTON, KY., February 20, 1850.

CRICAGO, September 3, 1850.

This may certify that I have examined, somewhat critically, James Spratt's Patent Lightning Rods, and that I am of opinion that it is constructed on scientific principles. For combining durability, cheepness, and efficacy, I deem it equal, and I think superior, to any other rod ever offered for my inspection.

AUGUSTA, (GA.) November 11, 1850.

This will certify that I have examined the Lightning Rods, Metallic Points, and Isolating Attachments, manufactured by Mr. Spratt, and regard them as constructed in conformity to the general laws of the electric fluid; and the metallic compound constituting the Points, as promising, from the result of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.

A. MEANS,

Prof. Phys. Sc., Emory College, Ga., and Prof. Chem. and Pharm., Medical College, Ga.

The Lightning Conductors put up by Mr. Henry M. Smith, of this city, on the plan of Mr. Spratt, appear to me to be very well devised; and, in point of mechanical construction, are the best I have ever seen.

It is to be hoped that the use of these Rods may become general, as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable.

R. SILIMAN, Jr.,

Prof. of Chem. in the University of Louisville.

Lemsyller, January 27, 1851.

FOR THE PREVAILING DISKASES of the Summer, a sovereign preventive and cure

J. R. THOMPSON & CO., Merchant Tailors

READ the fellowing proof of what we have long since asserted, vis: that the Mustang Liniment is the sinc qua non of all external remedies ever before offered to the afflicted:

CHARLES STOTT & Co., Agents, Washington.
